AMOUNT RAISED	TOTAL TOKENS
330,129 MBLZ	1,260,000,000 MBLZ

Create a Decentralized Wallet.

There are two types of wallets that work with cryptocurrency – centralized and decentralized. A centralized wallet means that it is run by a major exchange (similar to NASDAQ and NYSE). You can easily fund these wallets by connecting your bank account to them. A few examples of centralized wallets are Binance.US and Coinbase. Centralized exchanges (called CEX) have a ton of rules before a token or coin can be listed on it, and you will only see the major ones there.

A decentralized wallet allows you to hold just about any token in it, as long as you know the contract address for the token. Without going into detail here, **METABLAZE** token will exist on the Binance Smart Chain when it launches on its first decentralized exchange, which is called PancakeSwap. For an investor to be able to buy and sell MBLZ tokens after we launch on PancakeSwap, you will need to hold them in your decentralized wallet. Examples of decentralized wallets are Trust Wallet and Metamask.

For ease of setup, we are recommending that you create a [Trust Wallet](#). The steps for creating your first multi-coin Trust Wallet is very simple and can be done in just a few minutes. Make sure that you're using the official app, which can be downloaded from the official Trust Wallet [WEBSITE](#).

Launch Trust Wallet

When you first launch the Trust Wallet app, you will want to **Create a New Wallet**.

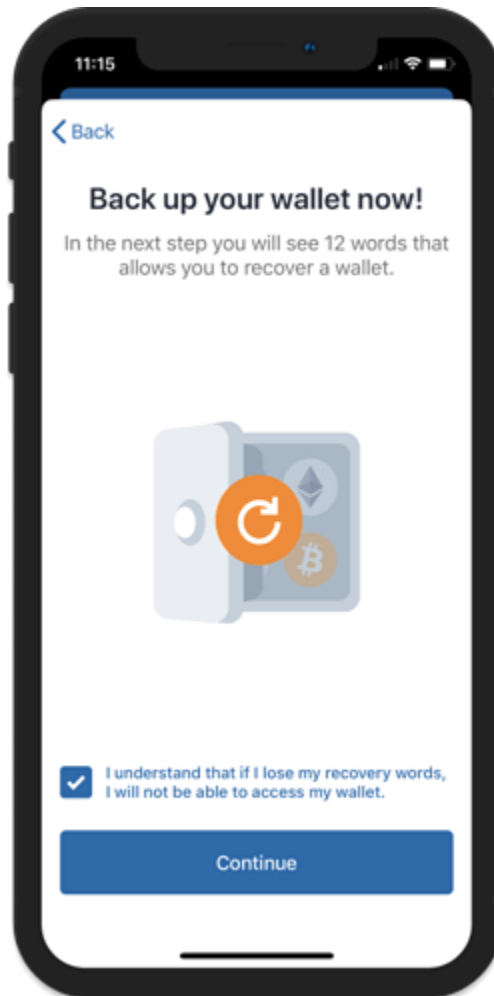

Accept Terms of Usage

In order to proceed, you will need to accept the Terms of Usage. Simply put a check mark at the box then press on **Continue**.

Warning!

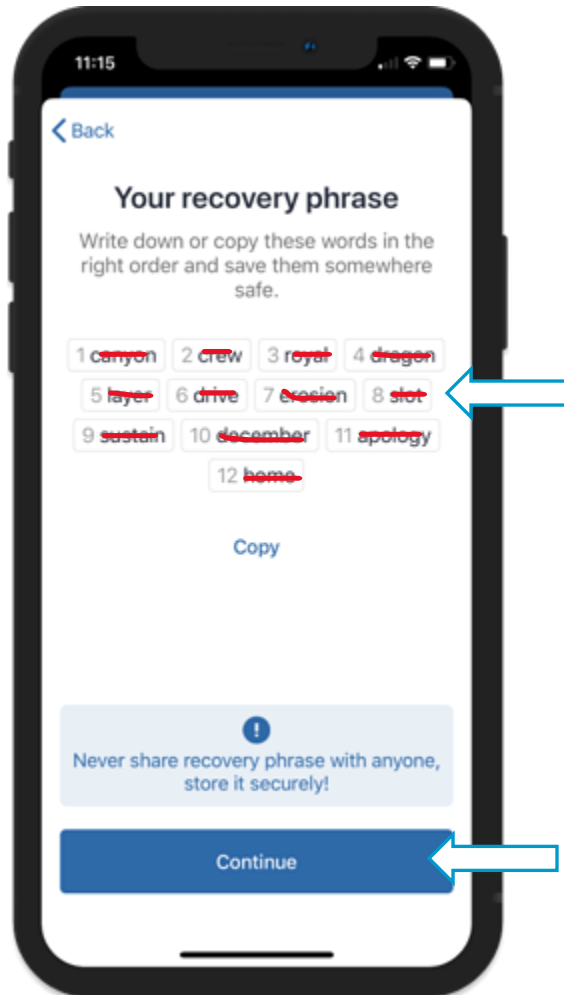

When you agree to to the terms of usage please be aware that **if you lose your recovery phrases you WILL LOSE ACCESS TO YOUR WALLET AND YOUR FUNDS!**

Save your Recovery (or Seed) Phrase

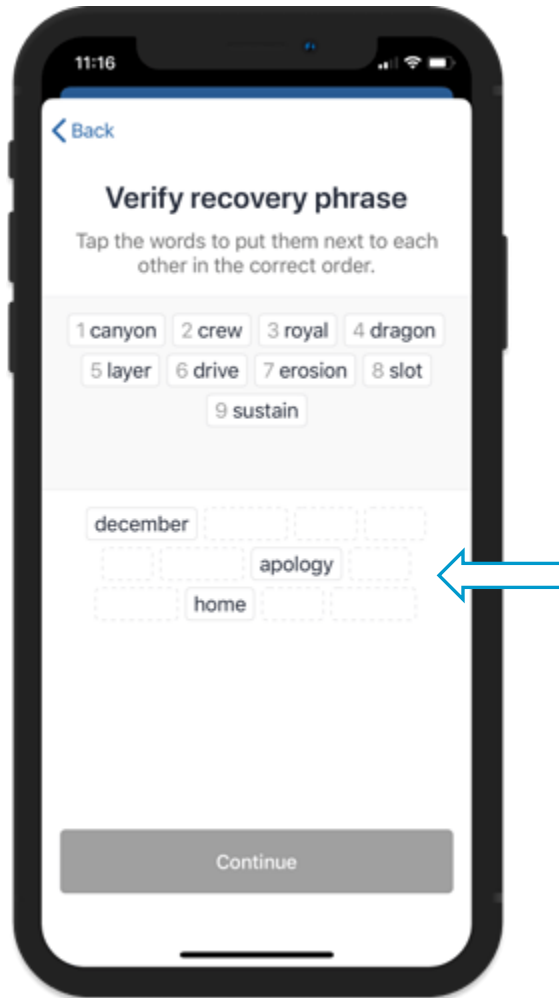

This is the most important part of your cryptocurrency journey. You **MUST** record your recovery seed phrases. These are the keys to your cryptocurrency wallet, so you must write them down and keep them in a safe place or two. After you have copied them down, press **Continue** to proceed.

*** Note: your recovery phrase will be unique; what you see below is just an example ***

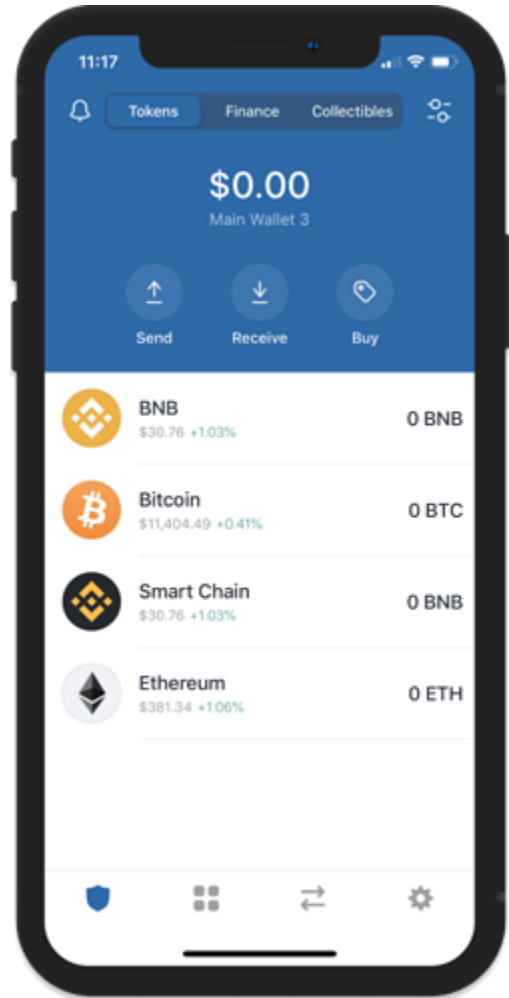

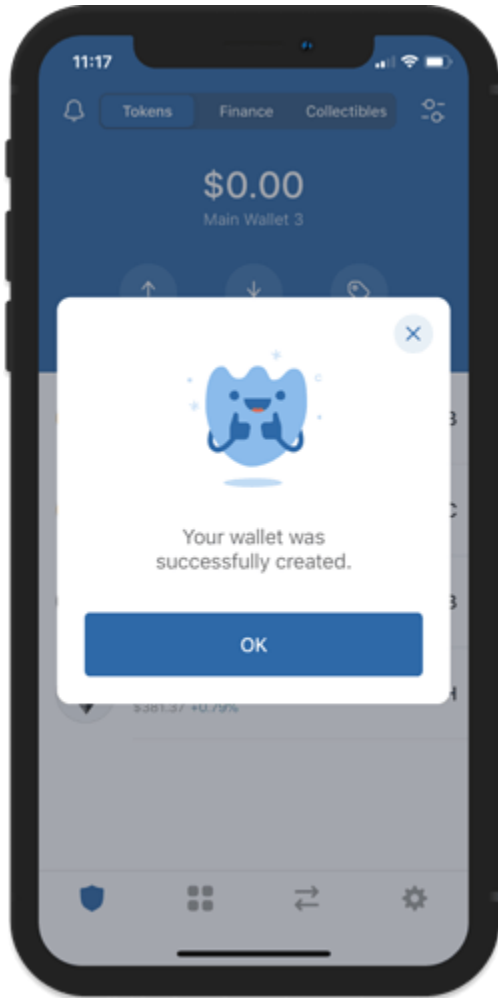

Verify your Recovery (or Seed) Phrase

If you followed the previous step and backed up your recovery phrase, this step will be easy. You will need to select, in the correct order, the words in your Recovery Phrase in order to complete the verification process. Click **Continue** when you are finished.

Wallet is Ready

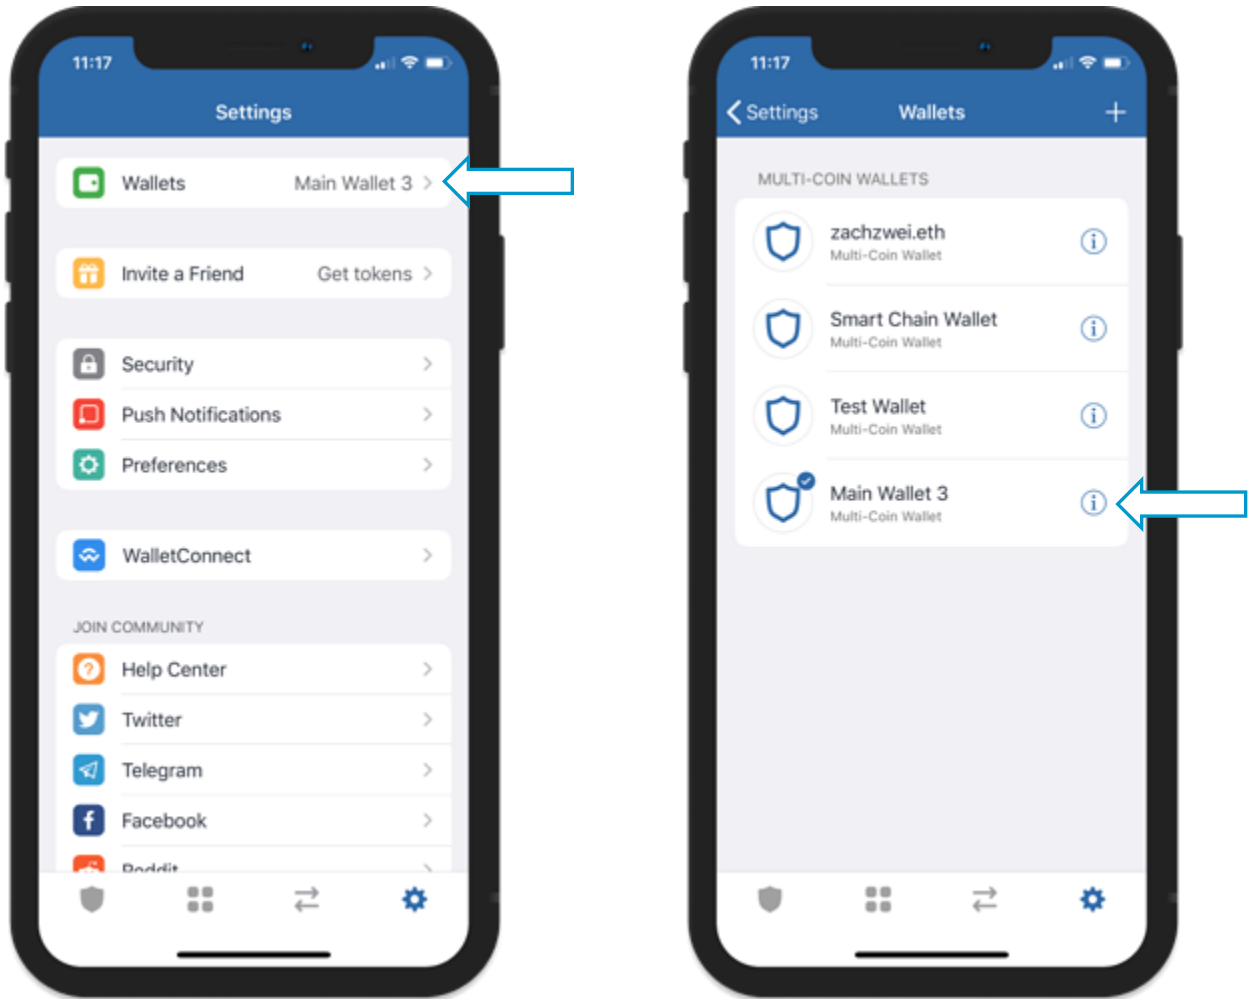

After going through the backup and verification processes you will be redirected to the main wallet screen, and you will see an initial list of coins that you can start funding right away.

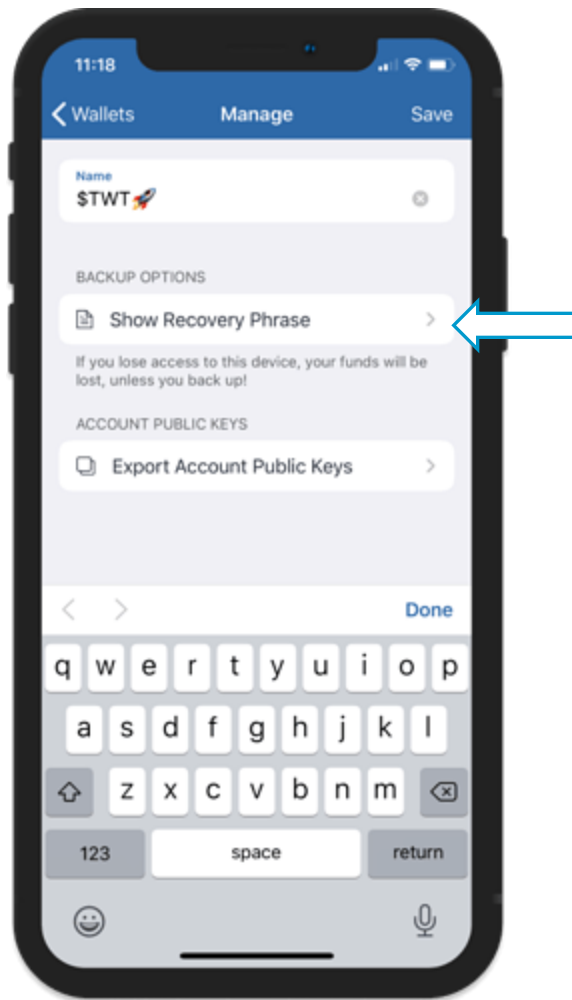

Personalize Your Wallet

You can set the name of your wallet so that you can easily recognize it. This change is only a local setting on the app and can be changed at any time.

Go to the **Settings** (the “gear” icon at the bottom right of your screen), then tap on **Wallets**.

Next, tap on the *i symbol* beside the wallet that you want to personalize. Save it and you are done.

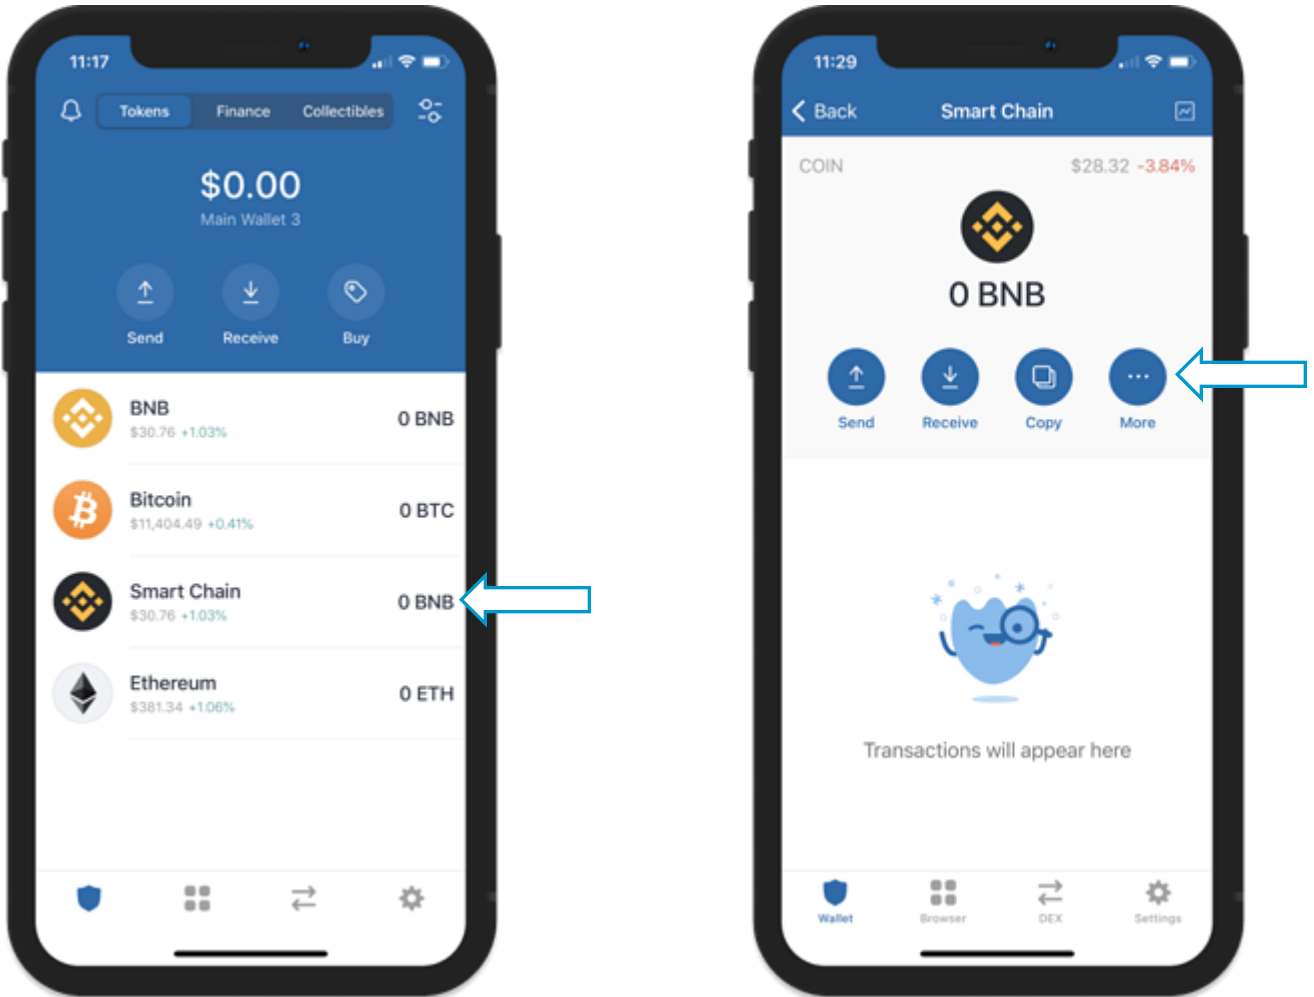

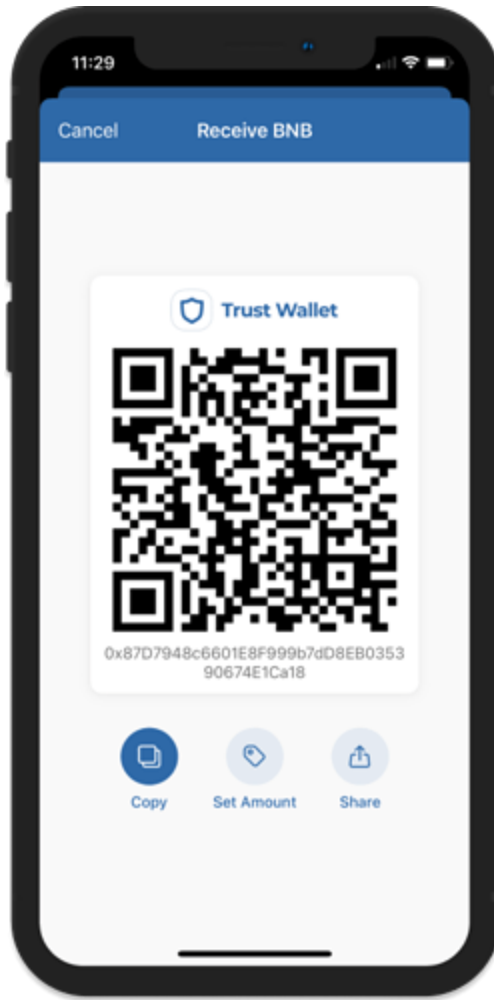

**** Note:** Also on the same screen, you will see **Show Recovery Phrase**. You can always go back here if you want to get your recovery phrases. This is very useful if you want to import your wallets to another device.

Locate your Smart Chain (BNB) Address

When **METABLAZE** is ready to launch (go live) on PancakeSwap, we will need to airdrop your purchased tokens to your wallet. This process is done through a Smart Contract that we create. This Smart Contract will automatically transfer ownership of the tokens from the company to you. In order for this to happen, you will need to provide your Smart Chain wallet address to your account on the **METABLAZE** Launchpad.

On your main wallet screen, tap on the **Smart Chain** logo. From here you can click **Copy** to get the address, or you can click on **Receive** to see your actual address and your **QR code**.

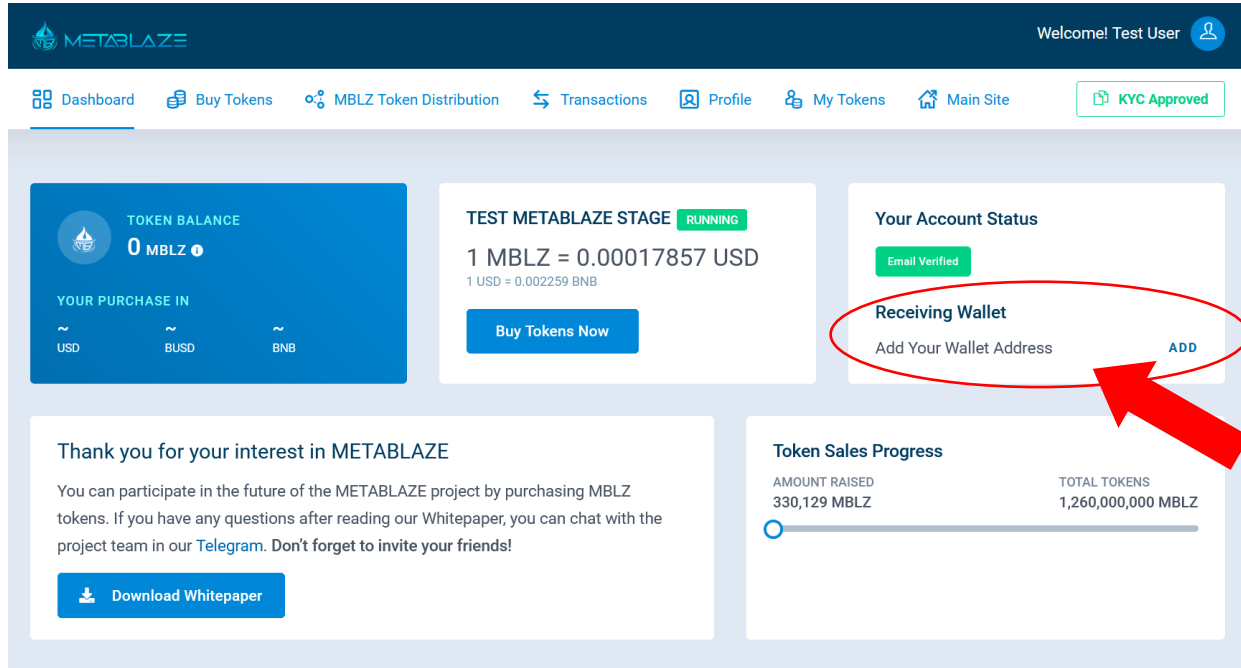

**** Note: The photo above is an example, NOT your wallet address!**

Add wallet address to your account.

ADD YOUR BINANCE SMART CHAIN (BEP20) WALLET ADDRESS! This wallet address is critical because this is where your \$MBLZ tokens will be airdropped after the completion of the presale.

Make sure you are entering a **BEP20 wallet** (Binance Smart Chain) only! **This wallet should start with 0x**. **DO NOT USE** a Centralized Exchange address such as Coinbase/Binance/Kucoin/etc, or you will **NOT RECEIVE** your \$MBLZ tokens. You will need a decentralized wallet such as Trust Wallet or Metamask for this.

Wallet Address

To receive your MBLZ tokens, you must enter your BEP20 Wallet Address below. We will airdrop MBLZ tokens to this address after the token presale has ended. **DO NOT USE** a Centralized Exchange wallet address (Coinbase, Binance, Kucoin, etc). You must use a decentralized wallet such as MetaMask, Trust Wallet, etc. If you enter a Centralized Exchange wallet you will **LOSE YOUR TOKENS** during the airdrop and we will not be held responsible.

Enter your Binance wallet address (must be BEP20-compliant - starts with 0x)

Note: Address must be BEP20-compliant (starts with 0x)

DO NOT USE a Centralized Exchange wallet address (Coinbase, Binance, Kucoin, etc). You must use a decentralized wallet such as MetaMask, Trust Wallet, etc. If you attempt to use a Centralized Exchange wallet you **WILL NOT** receive your tokens and **WILL LOSE YOUR FUNDS!!**

Add BEP20 Wallet (starts with 0x)

BEP20 ONLY! (indicated by a blue arrow pointing to the input field)

CRITICAL!! (indicated by a red arrow pointing to the warning text)

You will be presented with several ways to purchase your \$MBLZ tokens. Choose the **currency** that you plan to pay with and enter the **number of tokens** you want to purchase. You will be able to see the current exchange rate and the number of tokens you'll receive as your **presale bonus**.

Did you do this?

Add your BSC wallet address before purchasing

Choose a currency to calculate the MBLZ token price
 You can buy MBLZ tokens by using the one of the following currencies:

ETH 0.000000055803125 ETH BTC 0.0000000042017521 BTC
BNB 0.000000040338963 BNB

Purchase Amount
 Enter the amount you would like to purchase in order to calculate the number of tokens you will receive. The exact number of tokens you will receive will depend on the exchange rate when you confirm your transaction.

294117 MBLZ = **0.118643747806710000** BNB
 0.11864374780671 BNB (294,117 MBLZ) Minimum purchase amount is required.

+ PRESALE BONUS 10% TOTAL MBLZ
29,412 323,529

The exact number of tokens you will receive will depend on the exchange rate when your transaction is confirmed.

Make Payment

ⓘ Tokens will appear in your account after payment is successfully made and approved by our team. Please note that, MBLZ token will be distributed to your wallet after the token presales are completed.

Two-Factor Verification

Two-factor authentication is a method for protecting your account. When it is activated you are required to enter not only your password, but also a special code. You will receive this code via email. Even if third party gets access to your password, they still won't be able to access your account without the 2FA code.
